

Overview

This QRG is designed to walk Remote Deposit Scanner users through scanning checks and entering revenue deposits in CashPro.

Bank of America Remote Deposit Services (RDS) allow departments to scan checks remotely from their workstations.

This procedure is for departments who receive checks that are new Revenue. If the check you received is reimbursements coming from previous University transactions, use the [RDS for Expenditure Credit QRG](#).

By the end of this QRG, users will be able to enter a revenue deposit that was scanned into CashPro.

If the check you received is a gift/donation, do **NOT** scan the check. Please follow the instructions on the [Advancement website](#), under The UVA Hybrid Gift Processing Model section.

Scanning Revenue Deposits and Entering into CashPro Procedure

1. Log into CashPro.

If you have not set up CashPro, you can find more information on the [Utilize Remote Deposit Service \(RDS\)](#) page.

2. Select **Menu**.
3. Select **Receipts**.
4. Select **Remote Deposit**.
5. Select **New Deposit**.
6. Select the Standard Deposit option, in the first drop-down menu labeled Accounting Groups.

Make sure to select the option that does NOT say Expenditure Credit. The name of the Standard Deposit option may look different for each area.

7. Enter the number of items to be deposited.

Scanning Revenue Deposits and Entering into CashPro – Quick Reference Guide

Remember that the number of items to be deposited is one more than the number of checks in the deposit to account for the virtual slip.

8. Enter the deposit amount.

CashPro does not give a total amount. You will have to total the amount yourself to enter if you have more than one check.

9. Put the checks in the scanner with the back of the check facing toward the center of the check scanner and the front of the check facing outwards.
10. Select the **Start Capture** button when you see the amber light.
11. Verify the amount recognized by the check scanner agrees with the amount deposited.
12. Click **Complete** on every deposit.

Press the **Report View** button for a printable report that does not contain sensitive data. You should NOT print or email anything with routing or account numbers.

13. Log out of CashPro.
14. Review the Ad Hoc Bank Transaction.

Workday will automatically send an Ad Hoc Bank Transaction to your department's designated Cost Center Deposit Specialist for review/update/approval. See the [Review Ad Hoc Bank Transaction QRG](#) for more information.

15. Retain the checks as required by [Records Management guidelines](#).

It is best practice to attach a scan of the checks that are included in the deposit to the Ad Hoc Bank Transaction and dispose of the original checks. To find more information on how to find the check images in CashPro, click [HERE](#).

You have successfully completed this task.
